

#YouAreNotAlone

This Domestic Violence Awareness Month, MAWS is launching a multilingual awareness campaign with an important message for immigrant, newcomer and refugee women and families experiencing gender-based violence:

“You Are Not Alone.”

Our campaign features videos in five languages – Arabic, Punjabi, Mandarin, Persian and English -- with the Manitoba 24/7 toll-free Crisis and Support Line and MAWS website information included.

Women of cultural and linguistic diversity often face challenges like language barriers, lack of knowledge of support services, financial constraints, and uncertain immigration status, all of which can make them uniquely vulnerable to abuse.

Through these multilingual videos, our campaign hopes to connect these survivors with support programs, including the confidential Crisis and Support Line (1-877-977-0007).

Check out the MAWS website for more information on the campaign and family violence resources: <https://maws.mb.ca/>
